Algorithms Example Sheet 6: Further Reading

Exercise 6.F.1 [Tarjan's offline LCA algorithm] (+) Attempt Problem 21.3 in CLRS.

Project 1 Read <u>this wikipedia section</u> and write an exposition for the $\mathcal{O}\left(\log^* n\right)$ amortised bound.
Note: If you are interested, the more accurate analysis can be found in <u>this article</u> and the upper bound in CLRS section 21.4.
